Since 1933, **Newsweek** has been the authority in news journalism with the rare ability to reach both Americans and the world’s elite.
Newsweek’s Mission: To promote the freedom to disagree. The growth of knowledge and the foundations of democracy are built on disagreement. Through the crucible of dissent, clarity arises. That’s why Newsweek covers stories from multiple points of view: One truth, different angles. We challenge unexamined assumptions and conventional wisdom to bring new insight and understanding to the most important events of our time.
Today *Newsweek* is digital first and as influential as ever.
