Methodology – America's Best Loyalty Programs

Summary

The 2022 ranking of America's Best Loyalty Programs was compiled based on the results of an independent survey of more than 4,000 U.S. customers who are members of loyalty programs of retailers or service providers in the United States. Customers were given the opportunity to evaluate various loyalty programs: in total around 20,000 evaluations were collected. The survey period ran from October to November 2021.

We defined loyalty programs as all reward programs that provided the customer with a benefit when purchasing or using the products or services of the associated brands.

The survey was conducted on retailers and service providers from 36 categories, providing results for a broad spectrum of loyalty programs in traditional retail, online retail, and service segments.

The awarded loyalty programs each received an above average overall score.

The analysis of the best loyalty programs is based on a panel survey of more than 4,000 respondents

Basis

The survey was conducted using online access panels, providing a representative sample of more than 4,000 American customers. Each survey respondent gave evaluations of several brands: in total over 20,000 evaluations were collected.

Online access panel

Survey

- ∅ The loyalty programs awarded have reached an above average score in their category.

Assessment Criteria

Definition of the criteria

The final assessment and rankings were based on six evaluation criteria:

1. **Ease & enjoyment:** measures the value of the perks of being in the rewards program.
2. **Benefit:** measures whether the rewards are - in the customers perception - worth being part of the program.
3. **Overall satisfaction:** measures whether personal expectations were fulfilled, and whether the customer is satisfied with the experience of the loyalty program overall.
4. **Customer support:** measures the level of assistance provided to customers when signing up for the program or having trouble redeeming benefits.
5. **Trust:** measures the trust in the loyalty program around how they use the personal data provided through the program.
6. **Recommendation:** measures the likelihood of recommending the program to friends and family.

Breakdown of score and results

6 criteria make up the score for the ranking

Score breakdown

Categories (1/3)

Each loyalty program grouped by category
